Triangle presents *The Last Women: Gateway Two*
Theme: The Gateway of Health, Safety and Hospitality

Health, Safety and Hospitality: the hearth and the home, the domestic and the haven. What does a woman do in order to make a safe and happy home and what happens if it isn't good enough? How is this played out in the world of working and caring?

The Last Women is a year long performance project developing an interactive performance directed by Carran Waterfield which is evolving in response to the stories of Ruth Ellis and Mary Ball...last women to be hanged in Britain and Coventry respectively in 1955 and 1849.
